Citrus

What can I say about citrus? Citrus and I have known each other for 40 wonderful years. Citrus was the first flavor I ever met that I didn't think was a joke. Which is funny, since Citrus is such a funny guy once you get to know him. Citrus saved my marriage, got me off the streets, and kept me fed and watered when I was at my lowest. If it wasn't for Citrus, none of us would be in this room tonight. So please, join me in honoring what is easily the most versatile, sexy, egregious flavor you can think of: Citrus!

Citrus describes the sour, zesty fruits of the citrus family. You know them as oranges, lemons, limes, and many more. Most citrus has seeds, but there are also seedless varieties if you don't want seeds. Citrus is a good source of vitamin C, in fact the C in Vitamin C stands for Citrus!

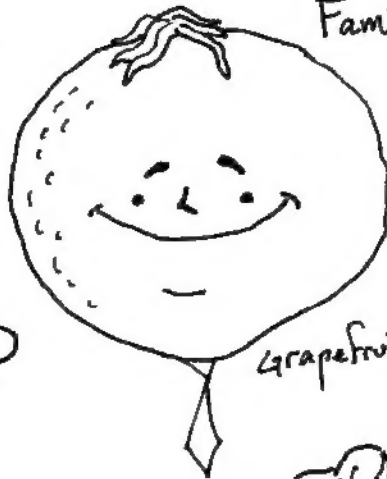

Another little known fact about citrus is that each of the fruiting parts is its own individual cell. This is why citrus is frequently featured in high school science classes on cells. This week the Night Drawer prompt is also citrus!

Every week the Night Drawers meet on Sundays at Le Voyeur and when 7pm rolls around they choose a prompt and everyone makes a page for the zine. If everything goes well then the next week there will be a finished zone for everyone to read.

IN 1999, I started work at a brand-
 new Embassy Suites as a Room
 Service attendant. The best part of
 that job (even though, through
 tips & "service charge"
 I managed to make
 about \$25 an hour)
 was my friend Emily
 who worked in the
 restaurant. She would
 get bored and call me
 & we would refer to one
 names - but

backwards. So she
 was "Y-LIME!" And I
 was "YERAC". We made
 stories about our dwarf
 and wizard lives & it
 passed the time in such
 a delightful way.
 Plus tips. I STILL MISS IT.

Almond Orange Cake

recipe adapted from Claudia Roden

this is a yummy, very moist cake. Maybe too moist to really be called a cake? Cooking the oranges will make your whole house smell intensely orange-y

INGREDIENTS

- 2 oranges, whole and unpeeled
- 6 eggs
- 1 cup (250 g) almond flour
- 1 1/4 cups (250 g) sugar
- 1 tsp baking powder
- 3 tbsp butter

STEPS

- 1 Wash and boil oranges (unpeeled!) in water to cover for 1 1/2 hours. Let cool.
- 2 Cut open, remove seeds, and puree in a blender or food processor
- 3 Beat eggs. Add all ingredients and mix thoroughly
- 4 Pour into buttered and floured cake tin (springform pan if possible) with a parchment paper bottom
5. Bake at 375°F for about an hour, or until it's not wet.
6. Cool in the pan before turning out

At 7pm a new prompt is chosen from the drawer and everyone is invited to make a page inspired by that prompt. No one knows what the prompt will be beforehand, but anyone can add new prompts into the drawer at any time. All the pages are collected and made into this zine.
